The Collision Repair Education Foundation (CREF) is looking to feature talented and creative career and tech students! Project design idea submissions will be accepted through February 28, 2022 and the top submissions will be invited to create their design to submit to CREF for a social media judging contest and a physical judging contest at SEMA 2022. The students submitting the winner submissions will receive a tool prize valued at $500.

**THEME:** What Inspires You?

**WHAT IS THE CONTEST?** Create a project following the theme and falling into one of the judging categories below. It can be painted, sculpted, welded, or a combination. We encourage creativity!

**WHO’S ELIGIBLE?** This contest is open to all career tech students.

**JUDGING CATEGORIES:**
- Bowling pin* *(body & refinish combination)*
- Mini-Hood* *(refinish)*
- Creative *(open category)*
- Welding

**HOW TO PARTICIPATE:**
- Determine which judging category your idea would best fit into
- Submit the registration form and a drawing of the design/project you would like to create to CREF by **February 28, 2022**
- The selected designs will be notified in March 2022
- Selected designs will need to be created and shipped to CREF no later than August 30, 2022
- Judging will occur both online and at SEMA 2022

**SUBMISSION REQUIREMENTS:**
- Initial design drawing must be submitted on a sheet of paper no bigger than 8.5X11; it can be hand drawn or done on a computer
- Completed projects must be able to fit into a box no bigger than 20 X 20 X 20
- Only individual designs (not team submissions) will be accepted
- CREF will supply bowling pins and mini-hoods if needed, but additional materials will be the responsibility of the applicant
- Any supplies/materials can be used, as long as the design ties into the contest theme

* CREF will provide
